

Homework Autumn 1 2023
Year 5 & 6

This half term, we are learning about Energy.
Choose one activity from the research section and one activity from the creative section to complete.

<p>Research</p>	<p>Research a scientist who is known for their work with energy, such as Maria Telkes, James Prescott Joule or Nikola Tesla.</p> <p>Find out where our local power stations are and show them on a map.</p> <p>Look at how you use energy in your home. What do you have in your rooms that uses power? Make a list of items for each room. Can you think of any ways you could save energy?</p>
<p>Creative</p>	<p>Amazing inventions! Design a creation that would need power to make it work. You might think of something that would benefit people somehow or go completely wild with your imagination. Maybe you would like to design a home that uses green energy.</p> <p>Bring in a copy of your design and share it with your class. You could even make a model if you like.</p> <div data-bbox="470 1288 774 1590"></div> <div data-bbox="917 1243 1252 1579"></div> <p>Websites you may find useful: https://www.kiddle.co/ https://www.bbc.co.uk/bitesize/topics/zttbcmn/articles/zywx6g8 https://kids.britannica.com/ https://www.bbc.co.uk/bitesize/topics/zshp34j/articles/zntxgwx Something extra? Check out the Little Inventors competition. https://kays-incredible-inventions.littleinventors.org/challenges/kays-incredible-inventions</p>

All activities must be completed by Tuesday 12th December 2023.

All activities must be completed by Tuesday 12th December 2023.
