

What can you see on the coast?

Overview

In this topic, the children will name and locate continents and oceans of the world whilst revisiting countries and cities of the UK. They will learn about physical and human features you see on the coast. They will find out about why people visit the coast.

Essential Knowledge

- To know that a sea is a body of water that is smaller than an ocean.
- To know that there are four bodies of water surrounding the UK and to be able to name them.
- To know that coasts (and other physical features) change over time.
- To know some key physical features of the UK.
- To know that a sea is a body of water that is smaller than an ocean.
- To know that maps need a title and purpose.
- To know that maps need a key to explain what the symbols and colours represent.
- To know that a tally chart is a way of collecting data quickly.
- To know that a pictogram is a chart that uses pictures to show data.

Vocabulary

aerial photograph, physical feature, human feature, continent, capital city, town, village, country, island, ocean, harbour, pier, cliff, coast, coastline, tourist

Hook into a Book

Activate Prior Knowledge

EY

- Identifying land and water on a map or globe
- Making observations about the characteristics of places.
- To know some vocabulary to describe different bodies of water, (sea/ocean, lake, river, pond).
- To know that usually water is represented in blue on a map or globe.
- To know the name of their school and the place where they live.
- To know some vocabulary to describe the characteristics of different places, hill, field, building, road, house, old.

Links to Future Learning

LKS2

- Locating some counties in the UK (local to our school).
- Describing how a locality has changed over time, giving examples of both physical and human features.
- Locating some key human features in countries studied.
- Describing how and why humans have responded in different ways to their local environments.
- Describing and explaining how physical features such as rivers, mountains, volcanoes and earthquakes have had an impact upon the surrounding landscape and communities

UKS2

- Using a simple key on their own map to show an example of both physical and human features.
- Labelling some features on an aerial photograph and then locating these on an OS map of the same locality and scale in regions studied.
- Finding answers to geographical questions through data collection.
- Identifying key physical and human characteristics of the geographical regions in the UK
